

On the Subject of Poetry

Will you write the way into her heart?

- You will see a member of the Literature Club.
- You will write a poem for her by picking one of the 6 possible words in several stages.
- On each stage you must pick **the word she will like the most**.
- You can rank how much a word is liked by a girl by ordering the words by the distance(**sum of the horizontal and vertical cell count between words** [This needs better phrasing I am aware B). I wanted to be clear while testing.]) to her corner on the table.
- If there are more than one word with the least distance you can pick any.
